

**PRODUCT CARD**

**REGRANULATE PP COLORLESS**

**Product Description**

Regranulate produced from foil from selective collection (PP waste)

**Main applications**

Designed mainly for the extrusion blow molding and injection processes.

**Characteristics**

| Characteristics        | Unit                     | Value                                                   | Norm                                                                |
|------------------------|--------------------------|---------------------------------------------------------|---------------------------------------------------------------------|
| Medium filing          | %                        | < 5,0                                                   | PN-EN ISO 3251                                                      |
| Moisture               | %                        | < 0,08                                                  | Own method                                                          |
| Melt Flow Index<br>MFI | g/10min<br>(190°/2,16kg) | 4,0÷5,0                                                 | PN-EN ISO 1133                                                      |
| Color                  | -                        | light ash                                               | -                                                                   |
